Plan and make Proper Strategy

- Making a strategy and a routine and following it strictly, can help you clear the examination easily and efficiently.
- To excel in AILET Exam, students are required to have a regular and rigorous practice of problems.
- Candidates are advised to devise a proper strategy and preparation plan according to the topics and the distribution of marks of the paper.
- This will help them in managing their time efficiently and come out of the paper with flying colors.

Make a wise choice while selecting reference books and study material

- Selecting the good books and the coaching institute is most important.
- Students should make the choice of the study material and AILET coaching centres wisely to clear the examination efficiently.
- Students must **refer to the standard books as suggested by the toppers** while preparing and solving each and every problem given in them.
- The market is flooded with unlimited preparation sources in the form of printed study material and online sources.
- Still, it is advised to the candidate to select the book as per their choice.
- Taking too many books may be difficult to read and take references from, so candidates must make sure to select appropriate books.

Solve Previous Year Question Papers

- Students must download and **solve** [AILET previous years' question papers](#) to understand the types of questions asked in the examination.
- Solving previous years' papers will help the students in analyzing the difficulty level of the paper and the paper pattern too.
- Also, solving the past years' papers will keep a student in a better position to attempt the AILET entrance test.
- Candidates are advised to appear for the past years' papers as the real test to give them a proper feel of the actual day of examination.

Solve Sample Papers or Mock tests

- Aspirants are advised to attempt the mock tests regularly, with their revisions
- Solving the mock tests helps the students in giving a reality check of AILET preparation and helps them know exactly where they stand.
- Candidates should make it a daily routine to solve at least one mock test every day.
- Apart from this, it also helps the candidates in understanding the **difficulty level of the paper and time management**.

Keep a track of daily Current Affairs

- The **general knowledge section of the AILET Exam covers the topics from current affairs mostly**.
- So, candidates are advised to **refer to some standard current affairs magazines like India Year Book, Pratiyogita Darpan, Manorama Current Affairs Book** to prepare well for this section.
- However, one must inculcate the habit of reading the newspaper daily and **jot down the important news, news, events, appointments, and other important information**.
- Additionally, you can also follow any good current affairs book at the end of the month and revise the monthly current affairs.

Ques: How much time is needed for AILET preparation?

Ans: Candidates should devote at least 4-5 hours daily for AILET preparation 2026. Give 1 hour 30 minutes to English, 2 hour to Logical Reasoning and 1 hour 30 minutes to Maths.

Ques: Is AILET tough?

AILET 2026 Preparation for English

- Since the **English section of AILET Exam consists of 35 questions**, ideally candidates should **finish the section in 21 minutes** wherein one question should not be given more than 60 seconds.
- The section of the exam checks the **proficiency in grammar and comprehension**, hence, candidates must spend time perfecting their language skills by using English in their daily life.
- To score well in this section, it is important for candidates to read and write as much as they can and build a good vocabulary.
- Along with learning new words, also learn about the sentence usage of that word. Most importantly, get a **good grip over grammatical rules** that would be used in sentence correction/creation.
- This will help candidates **tackle error detection-based questions.**
- When prepping for a language-based section, it is best to incorporate the language into our daily use so as to learn where the candidates need to improve and work on

AILET Preparation 2026 for Elementary Mathematics

- The **elementary mathematics section in AILET Exam consists of 10 objective questions** which should ideally be completed in **6 minutes** in order to complete the entire exam in the allotted time.
- To ace this section, candidates need to clear their basic concepts of Elementary Mathematics i.e., X grade Mathematics.
- Candidates should not undermine the value of this section as the weightage of this section is less compared to the other sections of the paper.
- It is important to **remember common formulae** that might be of any use to candidates during solving the questions from this section.
- Practicing more and more for this section is the only way to ace this section.

AILET 2026 Preparation for Legal Aptitude

- AILET Exam Toppers have suggested that candidates should **not spend more than 21 minutes to complete this section carrying 35 questions.**
- According to the exam pattern and recent trends of the exam, most of the **questions in this section are principle-fact-based.**
- Candidates must answer these questions on the basis of given legal principles and facts and should not just make assumptions.

- It is necessary for candidates to **be aware of the landmark as well as recent judgments and new laws and amendments.**
- Candidates must **practice mock tests and previous years' question papers** to solve this section as this will help them in gaining the speed to solve the questions faster.

How to Prepare for AILET 2026 in One Month

You have only one month to prepare for AILET? Do not worry, this section of AILET preparation will explain how to prepare for AILET in just a month.

Study Material:

- Gather the recommended books and study material for each section.
- Prepare notes, especially focusing on legal terms and current affairs for Legal Aptitude and GK sections.
- Improve comprehension skills for the English section by reading books, blogs, etc.
- Practice both inductive and deductive reasoning questions for Logical Reasoning.

Time Management:

- Although there is no time limit, aim to solve questions quickly due to the large number of questions (150) in 90 minutes.
- Work on time management by taking mock tests within the stipulated time.
- Focus more time on sections like English and Logical Reasoning, which require more solving time.
- Improve speed and accuracy to avoid negative marking.

Regular Practice:

- Practice mock tests regularly, regardless of confidence in preparation.
- Mock tests provide an overall analysis of your preparation and reveal strengths and weaknesses.
- Practice previous years' question papers to get familiar with the exam pattern.
- Take mock tests based on the new AILET pattern, setting a time limit of 90 minutes.

Revision:

- In the remaining days, revise using your notes and study material.
- Revise regularly to reinforce concepts and improve memory.
- Familiarize yourself with the study material to answer questions based on memory during the exam.
- Work on improving memory and concentration during preparation.

By following this one-month strategy, candidates can effectively prepare for the AILET 2023 and perform well in the exam. Regular practice, time management, and consistent revision are key to success.
