

What is the MHT CET exam syllabus?

The MHT CET Syllabus 2026 will include each chapter and topic from which questions will be asked in the Maharashtra Common Entrance Test.

As in previous years, around 60 to 70% of the topics are repeated, mainly in Maths and Biology. Mathematics accounts for 33% of the total PCM Marks, whereas Biology comprises 50% of the PCB Questions.

Around 65% of Physics and Physical Chemistry questions are numerical-based.

MHT CET syllabus 2026 will have 3 question papers in MCQ of 100 marks each.

Paper	Subject	MCQs (Std. XI)	MCQs (Std. XII)	Mark(s) per Question	Total Marks	Duration (Minutes)
Paper I	Mathematics	10	40	2	100	90
Paper II	Physics	10	40	1	100	90
	Chemistry	10	40	1	100	90
Paper III	Biology	20	80	1	100	90

MHT CET Syllabus 2026 PDF: Subject-Wise

The MHT CET syllabus will include the whole Class 12 syllabus and a few topics from Class 11.

The topics of Class 11 are given in the table below:

MHT CET SUBJECT	MHT CET Syllabus Topics for Class 11	Official MHT CET Syllabus Free Download
MHT CET Syllabus for Physics	Vectors, Error Analysis, Motion in a Plane, Laws of Motion, Gravitation, Thermal Properties of Matter, Sound, Optics, Electrostatics, Semiconductors	Download MHT CET Physics Syllabus PDF Here
MHT CET Syllabus for Chemistry	Some Basic Concepts of Chemistry, Structure of Atom, Chemical Bonding, Redox Reactions, Elements of Group 1 and 2, States of Matter (Gaseous and Liquids), Adsorption and Colloids, Surface Chemistry, Hydrocarbons, Basic Principles of Organic Chemistry, Chemistry in Everyday Life	Download MHT CET Chemistry Syllabus PDF Here

MHT CET Syllabus for Mathematics	Trigonometry II, Straight Line, Circle, Probability, Complex Numbers, Permutations and Combinations, Functions, Limits, Continuity, Conic Sections	Download MHT CET Mathematics Syllabus PDF Here
MHT CET Syllabus for Biology	Biomolecules, Respiration and Energy Transfer, Human Nutrition, Excretion and Osmoregulation	Download MHT CET Biology Syllabus PDF Here

Ques. Which Chapter Has More Weightage in MHT CET 2026?

Ans. In MHT CET, Class 12 topics carry 80% weightage, in which some topics are more frequently asked in all subjects.

Subject	High-Weightage Chapters	Approx. Weightage (%)
Physics	Mechanics, Thermodynamics, Electrodynamics, Optics	50–55%
Chemistry	Physical Chemistry, Organic Chemistry, p-block & d-block	50–55%
Mathematics	Calculus, Algebra, Vectors & 3D Geometry	50–60%
Biology	Genetics, Human Physiology, Ecology	55–60%

Ques. How Many Marks are in the 99.9th percentile in MHT CET 2026

Ans. In MHT CET, the percentile shows the relative performance of the candidates. The high-scoring candidates will typically score around 99.9 percentile.

- **For the PCM group**, 180–190 marks out of 200 may yield 99.9 percentile.
- **For the PCB group**, 190–200 marks out of 200 may yield 99.9 percentile.

Group	Total Marks	Marks for 99.9 Percentile (Approx.)
PCM (Engineering)	200	180–190
PCB (Medical/Pharmacy)	200	190–200

MHT CET Syllabus 2026: Subject-Wise Breakdown

The MHT CET Syllabus for physics and chemistry are included in engineering and pharmacy, for mathematics, it is included in engineering and for biology, it is included in pharmacy.

Each subject will have a different pattern, weightage and types of questions. By knowing the topics of each chapter, you can give priority to high-weightage topics.

- [MHT CET 2026 Biology Syllabus PDF\(Out\), Weightage, Previous Years Question papers](#)

MHT CET Syllabus 2026 Physics: PCM & PCB

- Around 70 to 75% weightage is given to class 12 topics.
- The Mechanics, Electricity and Modern Physics are the most-scoring topics.
- The Wave Optics and Electronics have a moderate difficulty level.
- If you will practice the numerical problem, your accuracy and speed will be improved.

Class	Chapters	Topics
Class 11	Physical world & Measurement	Units & Dimensions, Measurement, Errors, Scalars & Vectors
	Mechanics	Motion in a Straight Line, Motion in a Plane, Laws of Motion, Work, Energy & Power, System of Particles & Rotational Motion, Gravitation
	Properties of Matter	Elasticity, Viscosity, Surface Tension
	Thermodynamics	Thermal Properties, Thermodynamics Laws, Kinetic Theory of Gases
	Waves & Oscillations	Oscillations, Wave Motion, Sound
	Optics	Ray Optics, Wave Optics
Class 12	Modern Physics	Electrostatics, Current Electricity (intro), Magnetism (intro)
	Electrostatics & Current Electricity	Coulomb's Law, Electric Field, Capacitors, Ohm's Law, Kirchhoff's Laws, RC Circuits
	Magnetic Effects	Biot-Savart Law, Ampere's Law, Electromagnetic Induction, Inductance
	Optics & Waves	Wave Optics, Interference, Diffraction, Polarization
	Modern Physics	Dual Nature, Photoelectric Effect, Atomic Models, Radioactivity, Nuclear Physics
	Electronics	Semiconductors, Logic Gates, Communication Systems

MHT CET 2026 Syllabus Chemistry: PCM & PCB

- Total number of questions will be asked in Physical chemistry, Inorganic chemistry and Organic chemistry.
- Inorganic chemistry is the easiest and will also include the previously asked questions as well.

- The Dominance will be there for Class 12 topics, but revising the high-weightage Class 11 chapters can increase your score.

Class	Chapters	Topics
Class 11	Basic Concepts	Mole Concept, Atomic Structure, Chemical Bonding, States of Matter
	Thermodynamics & Equilibrium	Thermochemistry, Chemical Equilibrium, Ionic Equilibrium
	Structure & Bonding	Molecular Structure, Hybridisation, VSEPR
	Redox & Electrochemistry	Redox Reactions, Electrochemical Cells
	Organic Basics	Hydrocarbons, Functional Groups
	Chemistry in Everyday Life	Environmental Chemistry, Biomolecules
Class 12	Physical Chemistry	Solutions, Colligative Properties, Chemical Kinetics, Surface Chemistry
	Inorganic Chemistry	Periodic Table, p-Block, d-Block, f-Block Elements, Coordination Compounds
	Organic Chemistry	Alcohols, Phenols, Ethers, Aldehydes, Ketones, Carboxylic Acids, Amines, Polymers, Biomolecules
	Electrochemistry	Galvanic Cell, Conductivity, Batteries, Electrolysis

MHT CET 2026 Mathematics Syllabus (PCM)

- In Mathematics, 70 to 75% of the questions will be from class 12, in which Calculus & algebra have the most weightage.
- By practising these 3-D Geometry, vector and probability well, your scoring opportunities can increase.

Class	Chapters	Topics
Class 11	Algebra	Sets, Relations, Functions, Complex Numbers, Quadratic Equations, Sequence & Series

	Calculus Basics	Limits, Derivatives (intro)
	Trigonometry	Trigonometric Functions, Identities, Equations
	Coordinate Geometry	Straight Line, Circle, Parabola
Class 12	Calculus	Limits, Continuity, Differentiability, Applications of Derivatives, Integrals, Definite Integrals, Area under Curve
	Algebra	Matrices, Determinants
	Coordinate Geometry	3D Geometry, Vectors
	Probability & Statistics	Probability, Binomial Distribution, Conditional Probability, Statistics
	Linear Programming	LP Formulation, Graphical Method

MHT CET 2026 Biology Syllabus (PCB)

- Around 50% of PCB Marks are given to biology, which can help you in changing ranks.
- The Genetics, Human Physiology and Ecology are the major high-weightage chapters.

Class	Chapters	Topics
Class 11	Diversity of Life	Plant & Animal Kingdoms, Classification, Evolution
	Cell Structure	Cell Cycle, Organelles, Biomolecules, Cell Function
	Plant Physiology	Photosynthesis, Respiration, Transport in Plants
	Human Physiology	Digestion, Circulation, Excretion (intro)
Class 12	Genetics & Evolution	Mendelian Laws, DNA Replication, Evolutionary Processes
	Human Physiology	Circulatory, Respiratory, Excretory, Nervous, Reproductive Systems
	Biotechnology	Genetic Engineering, Microbes in Human Welfare, Cloning

	Ecology & Environment	Ecosystem, Food Chain, Biodiversity, Conservation
--	---	---

Ques. What is the pattern of the CET exam 2026?

Ans. The MHT CET 2026 is a state-based **entrance exam for engineering, pharmacy and medical courses in Maharashtra.**

It is conducted in a CBT Mode, including objective-type questions, including **conceptual understanding and problem-solving skills from the class 11 and class 12 syllabus topics.**

Subject	Questions	Marks	Class 11 vs 12 Weightage	Duration
Physics (PCM/PCB)	50	50	20% Class 11 80% Class 12	60 min
Chemistry (PCM/PCB)	50	50		60 min
Mathematics (PCM only)	50	100		60 min
Biology (PCB only)	100	100		120 min

Ques. What is the Difficulty Level of MHT CET 2026?

Ans. The MHT CET Exam is **considered a moderate to great difficulty level exam, which includes conceptual understanding and application from class 11 and 12 topics.**

The MHT CET Difficulty level can differ according to each subject, in which mathematics is numerically based, physics requires conceptual clarity, and biology is theory-based.

Subject	Difficulty Level	Key Reason
Physics	Moderate-High	Numerical problems & derivations
Chemistry	Moderate	Physical numericals & Organic reactions
Mathematics	High	Calculus, Algebra, 3D Geometry
Biology	Easy-Moderate	Theory-based, memory-oriented

Ques. Is NCERT Enough for MHT CET 2026?

Ans. The **NCERT includes a major weightage of MHT CET 2026**, but if candidates want to score high, they can take help from reference books as well for **practice and advanced questions.**

- In **MHT CET Biology, NCERT is sufficient**, and questions are theory-based.
- In MHT CET Chemistry, NCERT, along with **additional numerical practice for physical chemistry, is required.**
- In MHT CET Physics & Chemistry, NCERT includes basic concepts, and additional resources for problem-solving are required for numericals.

Subject	NCERT Sufficiency	Additional Recommendations
---------	-------------------	----------------------------

Physics	Partially	Reference books, previous year papers, and sample numericals
Chemistry	Mostly	NCERT for theory, reference books/practice for Physical Chemistry
Mathematics	Partially	Coaching materials, reference books, and advanced problems
Biology	Yes	NCERT sufficient; focus on diagrams & definitions

Which Topics Matter Most in MHT CET 2026? Check the Subject-Wise Weightage

In MHT CET, all chapters are not considered equal, as each chapter will have different topic-wise weightage, as per the previous year analysis some of the high-weightage topics have more contribution in the total marks.

Physics Topic-Wise Weightage (PCM & PCB)

Topic Area	Approx. Weightage	Expected Questions
Mechanics	20–25%	10–12
Electrostatics & Current Electricity	15–20%	8–10
Magnetism & EMI	10–12%	5–6
Optics (Ray + Wave)	10–12%	5–6
Thermodynamics	8–10%	4–5
Modern Physics & Electronics	10–15%	6–8

Chemistry Topic-Wise Weightage (PCM & PCB)

Topic Area	Approx. Weightage	Expected Questions
Physical Chemistry	30–35%	15–18
Organic Chemistry	30–35%	15–18
Inorganic Chemistry	25–30%	12–15
Chemistry in Everyday Life / Environmental	5–8%	2–4

Mathematics Topic-Wise Weightage (PCM Only)

Topic Area	Approx. Weightage	Expected Questions
------------	-------------------	--------------------

Calculus	30–35%	15–18
Algebra	25–30%	12–15
Coordinate Geometry	15–20%	8–10
Vectors & 3D Geometry	8–10%	4–5
Probability & Statistics	5–8%	3–4
Linear Programming	3–5%	2–3

Biology Topic-Wise Weightage (PCB Only)

Topic Area	Approx. Weightage	Expected Questions
Human Physiology	25–30%	25–30
Genetics & Evolution	20–25%	20–25
Cell Biology & Biomolecules	10–12%	10–12
Plant Physiology	10–12%	10–12
Ecology & Environment	8–10%	8–10
Biotechnology	8–10%	8–10

High-Scoring Topics in MHT CET Syllabus 2026: What Actually Decides Your Rank?

The MHT CET Exam Pattern follows a similar exam pattern, in which certain chapters contribute more marks every year. These topics are important when the preparation time is limited, as they can help you increase your score.

Most Important Topics for MHT CET 2026: PCM Group

Subject	High-Impact Topics	Why These Matter
Mathematics	Calculus, Algebra, Matrices & Determinants	Together contribute ~55–60% of Math marks
	Vectors & 3D Geometry	High accuracy topics with direct formula usage

Physics	Mechanics	The single largest contributor in Physics
	Electrostatics & Current Electricity	Appears consistently with numerical-based questions
	Modern Physics	Low effort, high accuracy section
Chemistry	Physical Chemistry (Kinetics, Solutions)	Formula-driven, fast scoring
	Organic Chemistry (Functional Groups)	Direct NCERT-based questions
	Coordination Compounds	High repetition across years

Most Important Topics for MHT CET 2026: PCB Group

Subject	High-Impact Topics	Why These Matter
Biology	Human Physiology	Contributes ~30% of Biology marks
	Genetics & Evolution	High question frequency every year
	Cell Biology & Biomolecules	Concept + memory-based scoring
	Ecology & Environment	Direct, short questions
Physics	Mechanics	Core physics foundation
	Current Electricity & Magnetism	Numerical-based, repeatable patterns
Chemistry	Organic Chemistry	Direct questions from NCERT
	Physical Chemistry	Consistent weightage, formula-based

MHT CET Exam Pattern 2026

The Understanding of the MHT CET Exam Pattern is as important as the syllabus, because it will tell how the marks will be distributed as per the time spent, and which section will influence the rank.

- The MHT CET Exam is conducted in a CBT Mode, and will have **different sections in the PCM and PCB Exams.**
- The Medium of the Exam will be **English/Marathi/Urdu.**
- There is no negative marking, **20% weightage will be given to class 11 and 80% to class 12.**

MHT CET Exam Pattern: PCM Group (Engineering)

- The Mathematics carries **50% of total marks**, and carries highest weightage, physics and chemistry will test more conceptual clarity rather than speed.
- If you score **70+ in maths, your overall percentile can boost.**

MHT CET Exam Pattern: PCB Group (Pharmacy & Allied Courses)

- The Biology carries **50% of total marks, including direct and NCERT-Based questions.**
- Whereas Physics and chemistry are also important as they can help in rank improvement.
- By Scoring **75+ in biology, you will be eligible** for top pharmacy colleges.

How Should You Prepare for MHT CET 2026 as per the Syllabus?

You should prepare for **MHT CET 2026 in an effective way, which should be related to the official syllabus.** To prepare effectively, prioritise **high-weightage topics of Class 12 chapters initially, then revise Class 11 topics as per the HSC Textbook.**

MHT CET 2026 Preparation Plan

Phase	Syllabus Focus	What to Study	Preparation Approach
Foundation	Class 12(High Weightage)	Core chapters of Physics, Chemistry, Maths/Bio	Build concepts from HSC textbooks, note formulas & definitions
Expansion	Remaining Class 12 + Easy Class 11	Supporting chapters & linked concepts	Solve topic-wise MCQs immediately after each chapter
Integration	Class 11 (20% Weightage)	Select scoring Class 11 chapters	Quick revision + limited MCQs, avoid deep theory
Practice	Full Syllabus	PCM/PCB mixed questions	Timed sectional tests & chapter-wise tests
Revision	High-Frequency Topics	Most repeated chapters	Formula revision, short notes, error correction
Testing	Complete Syllabus	Mock Tests	Full-length mocks with speed & accuracy tracking

Ques. Can I Prepare for MHT CET in 1 Month?

Ans. Preparing for MHT CET in 1 month is difficult, but it can be possible if candidates have strong knowledge of the basics. The focus should be on high-weightage chapters and previous year papers.

Parameter	Details	Explanation	Strategy
-----------	---------	-------------	----------

Preparation Time	1 Month	Short timeframe for exam preparation	Plan a daily timetable, allocate 3–4 hours per subject
Focus Areas	High-weightage chapters	Covers ~50–60% of questions, ensures scoring efficiently	Prioritise Class 12 topics, skip low-weightage topics if short on time
Practice	Mock Tests & Previous Year Papers	Improves speed, accuracy, and time management	Solve 2–3 full-length mocks weekly; analyse mistakes
Revision	Important formulas & NCERT	Ensures last-minute clarity and confidence	Make formula sheets and key diagrams for quick revision

Ques. What is the Criteria for MHT CET 2026?

Ans. The MHT CET criteria will define who can apply for engineering, pharmacy and medical courses in Maharashtra. It will ensure that candidates will meet the minimum educational and domicile requirements.

Criteria	Details
Nationality	Indian citizens and NRI/OCI candidates are eligible.
Domicile	Candidates must be residents of Maharashtra or satisfy the NRI/OCI quota as applicable.
Educational Qualification	- For PCM (Engineering): HSC (Class 12) with Physics, Chemistry, and Mathematics. - For PCB (Medical/Pharmacy): HSC with Physics, Chemistry, and Biology.
Minimum Marks	Class 12: Pass marks in all subjects (no minimum for appearing in MHT CET).
Age Limit	No age limit for appearing in MHT CET 2026.
Appearing Students	Candidates appearing for the Class 12 exam in 2026 are also eligible to apply.

Important Books for MHT CET 2026

To score high in MHT CET 2026, candidates should have clarity of concepts, do proper practice and revision.

The NCERT Books cover the basics, along with the reference books and guides, which will help in numerical practice.

Subject	Recommended Books	Purpose
---------	-------------------	---------

Physics	NCERT Physics Class 11 & 12, H.C. Verma Concepts of Physics	Concept clarity, numericals, theory
Chemistry	NCERT Chemistry Class 11 & 12, O.P. Tandon, Morrison & Boyd (Organic)	Theory + practice for Physical, Organic & Inorganic Chemistry
Mathematics	R.D. Sharma, R.S. Aggarwal, NCERT Math Class 11 & 12	Practice problems, Calculus, Algebra, Geometry
Biology	NCERT Biology Class 11 & 12	Theory, diagrams, high-weightage chapters
