

What is VITEEE Chapter Wise Weightage 2026?

chapter wise weightage for VITEEE 2026 differs by subject. Below is an estimated distribution for Physics, Chemistry, Mathematics (and English/Aptitude) based on recent trends. Use this to prioritise your preparation.

Subject / Section	Number of Questions	Approx Weight (%)*
Physics	35	28%
Chemistry	35	28%
Mathematics / Biology	40	32%
Aptitude	10	8%
English	5	4%
Total	125	100%

Check:

[VITEEE Exam Dates](#)

[VITEEE Eligibility Criteria](#)

8–10% weightage chapters: Calculus (Limits, Continuity, Differentiation, Integration), Coordinate Geometry (Straight Lines, Circles, Parabola, Ellipse, Hyperbola).

5–7% weightage chapters: Algebra (Complex Numbers, Quadratic Equations, Sequences & Series, Binomial Theorem), Matrices & Determinants, Probability & Statistics.

2–4% weightage chapters: Sets, Relations & Functions, Permutations & Combinations, Differential Equations, Vector Algebra, Trigonometry, Linear Programming, Miscellaneous Topics.

Topics / Chapters	No. of Questions (Approx.)
Calculus (Differential & Integral)	5
Coordinate Geometry	4
Algebra (Complex Numbers, Quadratic Equations, Matrices, Determinants)	4
Vectors and 3D Geometry	3
Probability & Statistics	2
Trigonometry	2

Sequences & Series	2
Permutations & Combinations	1
Sets, Relations & Functions	1
Differential Equations	1
Linear Programming & Miscellaneous	1

VITEEE Chapter Wise Weightage 2026: Physics

High-weightage chapters (3–5 questions): Mechanics (Laws of Motion, Work, Energy, Rotational Motion, Gravitation), Current Electricity, Electrostatics, Optics, Modern Physics.

Low-weightage chapters (1–2 questions): Magnetism, Oscillations & Waves, Kinematics, Solids & Fluids, Electromagnetic Waves, Experimental Skills.

Topic	No. of Questions (Approx.)
Mechanics (Laws of Motion, Work, Energy, Rotational Motion, Gravitation)	3–5
Current Electricity	3–5
Electrostatics	3–5
Optics	3–5
Modern Physics (Atoms, Nuclei, Photoelectric Effect, Semiconductors)	3–5
Thermodynamics & Kinetic Theory	2–3
Magnetism & Electromagnetic Induction	1–2
Oscillations & Waves	1–2
Kinematics	1
Unit, Dimension, Vector	1
Centre of Mass, Impulse, Momentum	1

Rotation	1
Solids and Fluids	1
Electromagnetic Waves	1
Experimental Skills & Measurement	1

VITEEE Chapter Wise Weightage 2026: Chemistry

High-weightage chapters (2–3 questions): Inorganic Chemistry (Periodic Table, Chemical Bonding, Coordination Compounds), Physical Chemistry (Thermodynamics, Electrochemistry).

Low-weightage chapters (1 question): Organic Chemistry, Hydrocarbons, Alkyl Halides, Functional Groups, Biomolecules, Nuclear & Environmental Chemistry.

Topics	No. of Questions (Approx.)
Transition Elements & Coordination Compounds	3
Periodic Table & Representative Elements	3
Chemical Bonding & Molecular Structure	2
Thermodynamics & Gaseous State	2
Atomic Structure	2
Chemical & Ionic Equilibrium	2
Electrochemistry & Redox Reactions	2
Chemical Kinetics	1
Solutions & Colligative Properties	1
Mole Concept & Stoichiometry	1
General Organic Chemistry	1
Hydrocarbons	1

Alkyl Halides & Functional Group Chemistry	1
Carboxylic Acids & Derivatives	1
Stereochemistry	1
Biomolecules (Carbohydrates, Amino Acids, Proteins)	1
Aromatic Compounds	1
Nuclear Chemistry & Environmental Chemistry	1

Ques. What is the general approach to Chemistry in VITEEE?

Ans. VITEEE Chemistry questions focus on conceptual understanding, problem-solving, and NCERT-based preparation:

S.No.	Details
1	Conceptual understanding and reaction mechanisms in Physical and Organic Chemistry.
2	Numerical problems primarily from Physical Chemistry.
3	Organic Chemistry reaction series, naming, and mechanism-based questions.
4	Emphasis on NCERT textbooks for accuracy and conceptual clarity.

Ques. How is Biology structured in VITEEE?

Ans. VITEEE Biology emphasizes theory, diagrams, and application-based questions

S.No.	Details
1	NCERT-based conceptual clarity is crucial.
2	Thorough knowledge of diagrams, terminologies, and biological processes.
3	Mix of factual recall and application-based questions to test understanding.

VITEEE Subject-Wise Weightage 2026

Understanding the subject-wise weightage for VITEEE 2026 will help students prioritize topics that carry higher marks.

The weightage is based on the VITEEE syllabus, which includes Mathematics/Biology, Physics, Chemistry, Aptitude, and English.

Subject	Weightage (Marks)
Mathematics/Biology	40 marks
Physics	35 marks
Chemistry	35 marks
Aptitude	10 marks
English	5 marks

VITEEE Exam Pattern 2026

The VITEEE 2026 test will be conducted strictly according to the syllabus prescribed by VIT for subjects including Mathematics/Biology, Physics, Chemistry, Aptitude, and English.

The type of test is multiple-choice with no negative marks for an incorrect answer.

Aspect	Details
Mode of Exam	Computer-Based Test (CBT)
Duration	2 hours 30 minutes
Total Marks	125 marks
Number of Questions	125 questions (Mathematics/Biology – 40, Physics – 35, Chemistry – 35, Aptitude – 10, English – 5)
Marking Scheme	1 mark for each correct answer
Negative Marking	No negative marking
Sections	Section 1 – Physics and Chemistry Section 2 – Mathematics/Biology Section 3 – Aptitude & English

Preparation Tips to Crack VITEEE 2026 with Top Scores

VITEEE 2026 preparation should be based on a smart, regular, and concept-based approach. As there are thousands of candidates for the limited number of seats in the VIT campuses, scoring

well becomes a must, which can only be achieved by having a proper understanding of the syllabus, managing time well and continuous practice.

VITEEE 2026 Subject-Wise Preparation Strategy

To maximise your score in **VITEEE 2026**, focus on the **high-weightage chapters** first and gradually revise moderate and low-weightage topics.

Targeted practice, especially for problem-solving in Physics and Mathematics, can significantly improve your marks. Here's a clear subject-wise strategy:

Subject	High-Weightage Chapters (Avg. % Share)	Study Priority	Suggested Time Split
Mathematics	Calculus, Algebra, Coordinate Geometry	Very High	45% of Math time
Physics	Electrostatics, Current Electricity, Modern Physics, Laws of Motion	Very High	40% of Physics time
Chemistry	Organic Chemistry (Hydrocarbons, Alcohols, Aldehydes), Physical Chemistry (Thermodynamics, Equilibrium), Inorganic (p-Block, Coordination Compounds)	Very High	40% of Chemistry time
Remaining Topics	Moderate/Low Weightage across PCM	Moderate	25–30% total prep time

Ques. What is the best way to prepare for VITEEE 2026?

Ans. The best way to prepare for VITEEE 2026 is:

- Focus on **NCERT-based concepts** and prioritise **high-weightage chapters**.
- **Practice daily problems** and take **weekly mock tests** to improve speed and accuracy.
- **Revise regularly** and analyse mistakes to strengthen weak areas.

Ques. How can I maximize my VITEEE 2026 score?

Ans. You can maximise the VITEEE 2026 score by:

- **Prioritise high-weightage topics** and revise moderate/low-weight chapters to cover the entire syllabus efficiently.
- **Practice daily problems and previous year papers** to improve accuracy, speed, and problem-solving skills.
- **Take weekly mock tests** and analyse mistakes to build exam confidence and time management.

Recommended Books for VITEEE 2025 Preparation – Physics, Chemistry, Mathematics & Mock Tests

Prepare effectively for VITEEE 2025 with these carefully selected books covering all key subjects. They provide clear concepts, practice problems, and previous year questions to strengthen your understanding and boost exam confidence.

Subject	Recommended Books	Short Description
Physics	Concepts of Physics – H.C. Verma	Clear concepts with solved examples for strong fundamentals.
	Objective Approach to Physics – D.C. Pandey	Focused on objective-type questions for practice.
	Problems in General Physics – I.E. Irodov	Challenging problems to enhance problem-solving skills.
Chemistry	Organic Chemistry – O.P. Tandon	Comprehensive coverage of organic chemistry topics.
	Physical Chemistry – R.C. Mukherjee	Detailed explanations and practice problems.
	Concise Inorganic Chemistry – J.D. Lee	Clear and concise inorganic chemistry concepts.
Mathematics	Higher Algebra – Hall and Knight	Thorough coverage of algebraic concepts and problems.
	Problems in Calculus of One Variable – I.A. Maron	Extensive practice problems in calculus.
	Objective Mathematics – R.D. Sharma	Objective-type questions covering all topics.
Mock Tests	Target VITEEE – Disha Publications	Previous year solved papers and mock tests for practice.
	Comprehensive Guide to VITEEE – Arihant Publications	Complete syllabus coverage with practice tests and solutions.
